STATE AND LOCAL ENVIRONMENTAL LIBRARIES

A Directory

November 1976

Joint Publication of

U.S. Environmental Protection Agency
National Oceanic and Atmospheric Administration

1a/

Second Edition, 1976

INTRODUCTION

This updated Directory of State and Local Environmental Libraries was compiled by the staffs of the U.S. Environmental Protection Agency's (EPA) Library Systems Branch, the EPA libraries, and the National Oceanic and Atmospheric Administration's (NOAA) Library and Information Services Division and NOAA libraries around the nation. It is hoped that it will stimulate further cooperation among all libraries with a common interest in the collection and documentation of environmental literature. Suggestions for new entries are sought (see back page for New Entries/Address Change form).

General university libraries have not been included, nor have documents divisions of these and public libraries, since the primary portions of such collections are not presumed to be environmentally oriented. Specialized departmental libraries of both university and public libraries have been included where they specifically relate to environmental activities.

Telephone numbers and names of librarians have been provided when available, but, of course, these are subject to change.

Questions regarding this publication may be referred to:
